*Started off with the baked Brie that came with Italian bread, that was excellent! My Wife had the Shrimp Scampi..snore. Boring. That to me is like ordering a Taco at a Mexican joint. No offence to Keagans. Me, I Like to try new things so I got the Pineapple Soy glazed grilled Swordfish. Man was it beyond excellent, I loved it and can't believe I've never had Swordfish before and glad my first was here because they do it up nice over a carved out pineapple with the pineapple cuts and orange along with rice. The sauce they use isn't over bearing but just right. And if I can say, the whole Dish "was on point".*

*This was my first trip to Keegan's and will not be the last! Great local spot w/ exceptional service and fantastic food!!! I travel for work and eat at good restaurants all over the country and the snapper I had last night was one of the best pieces of fish I've ever had!! Priced very reasonably for the quality of the dish and the selection.*

*Awesome. Just wonderful. Laid back, low key, local favorite. Absolutely delicious Parmesan-encrusted Grouper Cheeks sandwich. Tasty cajun gator tail. I can't wait to go back - this is definitely a favorite. Now I must find a video of the "Diners,*
